Content Summary

The aim of this course is to develop knowledge of the Chailey Levels of Ability and Assessment Charts as a tool for assessing postural ability. It provides an introduction to the evidence base for postural management and will increase awareness of the design and use of postural management equipment. The course consists of slide presentations, workshops and practical sessions.

CPD Approval/accreditation

An Attendance Certificate will be issued at the end of the course.

Target Group

This course is aimed at Healthcare professionals who want to develop or refresh their knowledge of postural management and equipment-related issues.

Relevant information

Pre-course reading – A copy of the Second Edition of 'The Chailey Approach to Postural Management' will be sent to all applicants.
